

Lambda Photographic Metallic Paper

Width:	1.27 metres
Finish:	Metallic
Image Durability:	+100 years indoor
Thickness/weight:	250gsm
Fire Rating:	M2

Features:

- Photographic, continuous tone imaging
- Metallic appearance creates three dimensional, lasting images on an ultra-bright background.
- This process produces an archival image, as seen in museums, galleries and high end retailers
- This product can be over-laminated to produce different levels of metallic effects

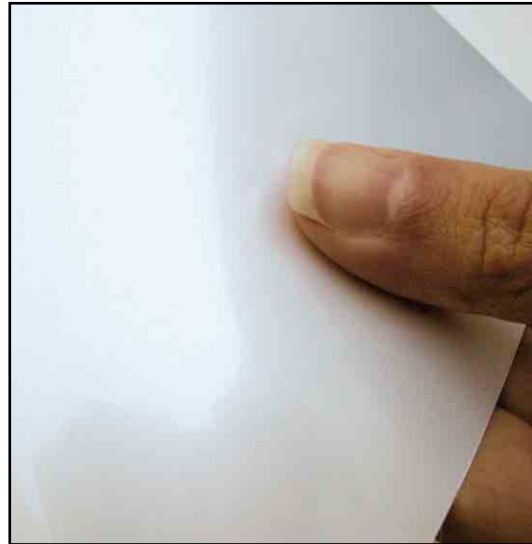

Common Usage:

- Gallery and museum graphics
- Retail graphics
- Promotional mail pieces with a difference
- Floor graphics
- Acrylic face mounts

Alternative Products:

- Matt or Gloss Lambda paper
- Inkjet prints
